# Your energy bill

## Message Center

This bill reflects BPU-approved changes, effective January 1, 2020, in the Delivery portion of your bill. These changes are due to an increase in the Non-Utility Generation Charge, partially offset by a decrease in the Solar Pilot Recovery Charge. The increase for business customers will vary by individual customer usage. Tariff information can be found at pseg.com.

Make sure we can reach you! Please ensure that your contact information is up to date, so we can keep you informed about your account and weather events that may impact electric or gas service. Just log in to *My Account* at pseg.com, hover over the *My Account* tab, and click on "My Profile" to edit your phone and email contacts.

Prevent carbon monoxide poisoning. While CO poisoning is a year-round threat, it is more common in cold weather. Install CO detectors throughout your home or business. Visit pseg.com/safety to learn more about how to protect yourself.

# Your energy bill

## Message Center

This bill reflects BPU-approved changes, effective January 1, 2020, in the Delivery portion of your bill. These changes are due to an increase in the Non-Utility Generation Charge, partially offset by a decrease in the Solar Pilot Recovery Charge. As a result of these changes, a typical residential customer who purchases supply from PSEG, and uses 740 kilowatt-hours in a summer month and 6,920 kilowatt-hours annually, will see an annual increase of \$0.68, or approximately 0.06%. Tariff information can be found at pseg.com.

Struggling to pay your PSEG bill? The Low Income Home Energy Assistance Program (LIHEAP) will take applications until July 31, 2020! Call 1-800-510-3102 or 211, or visit pseg.com/help to find out where to apply. For more information, see the enclosed bill insert.
