This bill reflects BPU approved changes in your electric bill effective February 1, 2020. These changes are a result of an increase in the Supply portion of your electric bill due to changes in transmission charges if you receive PSEG's Basic Generation Service (BGS), partially offset by a decrease in the Delivery portion of the bill due to changes in the Societal Benefits Charge, Green Programs Recovery Charge and Tax Adjustment Credit. PSEG's BGS is provided to customers who do not have a Third Party Supplier. The increase for business customers will vary by individual customer usage. Tariff information can be found at [pseg.com](http://pseg.com).

New! PSEG's free mobile app helps you get things done on the go! You can view and pay bills, review usage history, as well as report an outage and get outage updates. Download the PSEG app for iOS or Android and log in using your My Account password.

This bill reflects BPU approved changes in your electric bill effective February 1, 2020. These changes are a result of an increase in the Supply portion of your electric bill due to changes in transmission charges if you receive PSE&G's Basic Generation Service (BGS), partially offset by a decrease in the Delivery portion of the bill due to changes in the Societal Benefits Charge, Green Programs Recovery Charge and Tax Adjustment Credit. As a result of these changes, a typical residential customer who purchases supply from PSE&G, and uses 740 kilowatt-hours in a summer month and 6,920 kilowatt-hours annually, will see an annual increase of \$26.76, or approximately 2.18%. Tariff information can be found at [pseg.com](http://pseg.com).

### Explaining gas charges

We measure the volume of gas you use in cubic feet (CCF) and then convert it to therms.

If you used a standard gas clothes dryer, it would take about 6 hours to equal 1 therm of energy.

### About the balancing charge

The balancing charge includes pipeline, storage and other costs associated with seasonal peaks in usage. It applies from October to May.

### Price to compare

If you want to consider getting your gas supply from another supplier, you can compare their price with ours. This month, your cost for gas supply is \$59.19 (or an average of 0.32015361 per therm). This *price to compare* varies from month to month, depending on your usage.
